

# **Authors' Responses to Reviewers' Comments**

## ***Study on Winding Design of Dual Three-Phase Electrical Machines for Circulating Current Harmonics and Vibration Suppression***

*Author: Yang Lu, Jian Li*

*Review Number: 22-TIE-1751*

*All the comments and suggestions from the reviewers and the AE are addressed. The authors truly thank the reviewers and editors for their time and efforts in reviewing the paper. The authors hope that the quality of the revised manuscript is improved. And, of course, the authors are quite willing to improve this manuscript if there are any further comments and suggestions.*
